### LIGHT BROWN

Henna «Light brown» is an ideal color for blondes and girls with light skin. Using various mixtures of colors, you can achieve gentle natural shades or more expressive, bright colors.

### CHOCOLATE MILK

Henna «Chocolate milk» is a perfect color for blondes and dark blondes. The color can be more intense and deeper when mixed with color correctors.

### CARAMEL

Henna «Caramel» has a warm light brown pleasant shade. When mixed with other colors, it gives a deep warm shade. It is recommended for girls with light brown hair.

### CHOCOLATE

Henna «Chocolate» is a color for girls with light-brown and brown hair. It looks more intense when mixed with other colors and gives a natural effect while dyeing as it does not give a red tint.

### «COLOR-MIX»

### ALMOND

Henna «Almond» is a "color-mix", which has special properties. This color of henna helps to add a warm, natural tone, making any other color softer and giving a multifaceted and intense shade on the hairs of the eyebrows.

### BROWN

Henna «Brown» is a color for girls with light brown hair and dark blondes. It gives a deep brown color.

### DARK BROWN

Henna «Dark brown» is the darkest color which is suitable for girls with dark eyes, brown hair or brunettes. The eyebrow line will be clearly and brightly emphasized. This color of henna will give cold dark brown shade on the skin and hairs.

### «COLOR-MIX»

### BLACK

Henna «Black» is a "color-mix", which has special properties. This color of henna is not used alone; when mixed with other colors, it helps to make them colder and brighter. The color depth depends on the amount of black henna in the main color while dyeing.

- 1. Henna «Matreshka»** is a natural product for coloring and designing eyebrows. Henna does not only give a deep, rich color, but also strengthens the hairs, makes them thicker, stimulates hair growth.
- 2. Henna «Matreshka»** is a natural dyeing method which is safe for health. Our products are suitable for people with sensitive skin.

**3. Henna «Matreshka»** includes 6 basic shades and 2 corrector shades. Using a unique color palette, you can create a non-repeating color and choose an individual combination when dyeing.

**4. Henna «Matreshka»** is a special package and dosage in capsules. Together with our experts, who conducted tests on the reaction of henna with air, light and humidity, we have developed a package which will allow you to preserve all the valuable properties of the product. The most convenient dosage of the capsule makes henna consumption minimal. Our packaging guarantees a long shelf life.

**5. Henna «Matreshka»** is easy to use. For staining, just add some henna from the capsule into the container for dilution, add the mineral solution "Matreshka" to the "sauce" state and let it infuse for a few minutes. You can dye immediately. The durability of color is up to 14 days on the skin and up to 1.5 months on the hairs.
