HENNA FOR EYEBROWS. COLORING WITHOUT SKIN DAMAGE. TATTOO EFFECT.

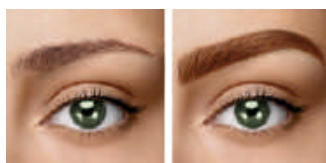

LIGHT BROWN

Henna «Light brown» is an ideal color for blondes and girls with light skin. Using various mixtures of colors, you can achieve gentle natural shades or more expressive, bright colors.

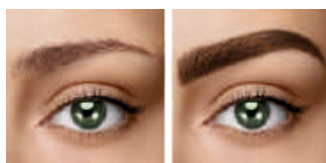

CHOCOLATE MILK

Henna «Chocolate milk» is a perfect color for blondes and dark blondes. The color can be more intense and deeper when mixed with color correctors.

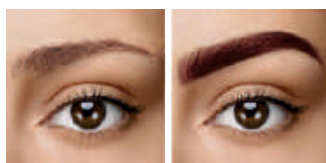

CARAMEL

Henna «Caramel» has a warm light brown pleasant shade. When mixed with other colors, it gives a deep warm shade. It is recommended for girls with light brown hair.

CHOCOLATE

Henna «Chocolate» is a color for girls with light brown and brown hair. It looks more intense when mixed with other colors and gives a natural effect while dyeing as it does not give a red tint.

BROWN

Henna «Brown» is a color for girls with light brown hair and dark blondes. It gives a deep brown color.

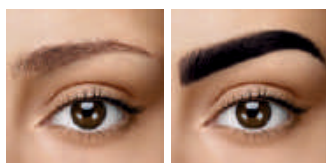

ALMOND

Henna «Almond» is a «color-mix», which has special properties. This color of henna helps to add a warm, natural tone, making any other color softer and giving a multifaceted and intense shade on the hairs of the eyebrows.

DARK BROWN

Henna «Dark brown» is the darkest color which is suitable for girls with dark eyes, brown hair or brunettes. The eyebrow line will be clearly and brightly emphasized. This color of henna will give cold dark brown shade on the skin and hairs.

BLACK

Henna «Black» is a «color-mix», which has special properties. This color of henna is not used alone; when mixed with other colors, it helps to make them colder and brighter. The color depth depends on the amount of black henna in the main color while dyeing.

EYEBROWS LAMINATION

Laminazione e lo styling di sopracciglia a lungo termine «**Matreshka for men**»: la procedura è consigliata per tutti gli uomini, nonostante le condizioni e la struttura dei capelli. Il complesso di prodotti è stato creato tenendo conto della rigidità e della specificità della crescita delle sopracciglia maschili. Soprattutto tale cura è necessaria quando le sopracciglia sono inobbedienti, in crescita diretta e hanno altre problematiche. L'intera procedura non richiede più di 40 minuti e l'effetto dura fino a 8 settimane. La procedura favorisce la guarigione e la crescita dei capelli, così come aiuta a modellare la forma applicando composizioni speciali ai capelli.

Dopo la procedura, le sopracciglia diventano folte e ben curate. I prodotti sono venduti in set, che include tutti i componenti necessari, istruzioni dettagliate sulla procedura e informazioni su ciascuna composizione.
